Re: Travis County Land, Water and Transportation Plan

Dear Honorable Judge and Commissioners:

On behalf of the Board of Directors of the Congress for the New Urbanism Central Texas Chapter (CNU-CTX), we would like to thank you for adopting the Travis County Land, Water and Transportation Plan.

As you know, CNU is a multi-disciplinary organization recognized globally as a leader in city-building. We advocate for complete communities that offer convenient, compact and connected places to live, work, and play. These are places that are more culturally vibrant, healthy and walkable, and in turn improve our transportation choices, create more options for affordable living, lessen the demand on our limited resources and strengthen our social fabric.

We applaud this new Plan and its focus on both protecting sensitive areas and encouraging compact, mixed-use developments that enable alternative transportation choices and foster more walkable, connected communities. Thank you for your leadership in helping advance quality urbanism in our region.

Respectfully yours,

Cid Galindo, President
Congress for the New Urbanism, Central Texas Chapter
